## THE COMMONWEALTH OF PENNSYLVANIA

DEPARTMENT OF AGRICULTURE

### Certificate of Inspection of Nursery Stock No. 656.

This is to certify that the stock in the nursery of THOMAS MEEHAN & SONS, INC., of Dreshertown, County of Montgomery, State of Pennsylvania, was duly examined in compliance with the provisions of the Act of Legislature of Pennsylvania, approved the 10th day of June, A.D., 1901, and it was found to be apparently free from San Jose Scale and other dangerously injurious insect pest or pests.

This Certificate expires July 31, 1905.  
Dated Harrisburg, Pa., Sept. 12, 1904.

*A. B. Critchfield,*  
Secretary of Agriculture.

GEO. C. BUTZ, Inspector.

Our nurseries have been carefully inspected and no trace of scale or other injurious insects found. For the benefit of customers, however, who wish stock fumigated, we have erected a fumigating house, and when requested to do so will fumigate shipments before packing.

This will be done, however, entirely at the risk of the purchaser.

THIS CATALOGUE TAKES PLACE OF ALL THE PREVIOUS ISSUES

# Thomas Meehan & Sons, Inc.

NURSERYMEN AND TREE SEEDSMEN

Wholesale Department

Dreshertown, Montgomery Co., Penna.

# Important! Please Read!

**CUSTOMERS** are requested to state the mode of conveyance by which they desire their trees forwarded. When no route is named we forward to the best of our judgment; but in no case do we assume any responsibility after the goods are shipped, unless for our own mistakes.

**TERMS CASH**, on or before delivery to express or railroad agents, unless by special arrangement.

**TWO HUNDRED AND FIFTY**, twenty-five and five will be furnished at the thousand, hundred and ten rates respectively.

**PACKING CHARGED EXTRA**, but only sufficient to cover cost of time and material.

**Post-Office Orders payable at Dreshertown, Montgomery Co., Pa.**

**Telegraph Office, Ambler, Pa.**

**VISITORS** are always welcome and should take train at the Reading Terminal, 12th and Market Streets, Philadelphia, for **Camp Hill Station**, or at Broad Street Station, Pennsylvania R. R., for **Fort Hill Station**. Be sure that the train you take stops at these stations.

**NOTICE.**—It is necessary that you should **Telephone** us (Bell Phone, 26 Fort Washington) in advance of your coming, so that we can send a carriage to the station for you. Our office is  $2\frac{1}{2}$  miles from either station.

OFFICE OF WHOLESALE DEPARTMENT, DRESHERTOWN, PA.  
The entire building is occupied as offices. Packing and Storage Houses in the rear.

# DECIDUOUS TREES.

"Trans." signifies the stock has been once or more transplanted.

"Seed." that it is still in Seedling Beds.

		Per 10	Per 100	Per 1000

" "	" "	5 ft. trans.	3 50	
" "	trilobatum	2½ to 3 ft. trans.	3 50	

The Acer Ginnala is one of the finest bush-like growing trees in cultivation and should be largely used in park and cemetery planting, either as a single specimen or in large masses. Nothing surpasses the richness of its coloring in the fall.

## JAPANESE MAPLES.

All of the Japanese Maples offered by us are of our own propagation. Customers who have planted them side by side with the rough, hide-bound and poorly-rooted imported Japanese plants quickly recognize the merits of our home-grown stock. It is worth the little additional price charged over the imported stock.

☞ It is safe to say that we have the largest and finest stock of Judas, both American and Japanese, in the country. Fine bushy stock too. Note the specimens of each. They were recently transplanted and set wider apart to afford room to develop. They are valuable plants to produce an immediate effect.

**Cladrastis tinctoria, (Virgilia lutea) Yellow Wood,** 1 to 2 ft. trans. 1 50

		Per 10	Per 100	Per 1000
<b>Cornus florida, White flowered Dogwood,</b>	2 to 2½ ft. trans.	\$1 00	\$8 00

### PYRUS BACCATA.

#### NATIVE FLOWERING APPLE.

This is the wild native apple so conspicuous in spring when covered with its masses of small white flowers. They are pure white, single, and extremely fragrant. In the fall the tree is loaded with small red and yellow apples about the size of a heart cherry, and are very ornamental in their character. It is largely used in parks, cemeteries and large private grounds both as single specimens and in masses. For prices see page 8.

### PHOTINIA VILLOSA.

Few small-growing trees attract the eye as does this one. It is not only striking in its appearance in the spring when in bloom, but in the fall its foliage turns to bright crimson, red and yellow colors. After the leaves fall the masses of bright coral berries remain on the tree long into the fall and winter. It is a tree that should be largely planted.

**We challenge the world with our Oaks. No larger stock and no finer stock grown anywhere. Our soil seems particularly adapted to them. Every visitor to our Nurseries says so. Our trees are not lanky but are well furnished with bushy heads. They are stocky and have the best of roots. No "hacked" roots in digging. They are taken out with "all roots." Note the heavy specimen trees offered. They are something extra fine. Photographs of any size of any variety of the specimen Oaks furnished upon application.**

### AZALEA MOLLIS.

This picture is given to illustrate the character of both our **MOLLIS** and **PONTICA** **AZALEAS**. Note the bushiness of the several grades of plants, and the large ball of earth.

## EVERGREENS.

☛ All of our evergreens have been once or more transplanted. The larger sizes several times, and the choice varieties we move in a period not exceeding two years. These choice varieties are all dug with a ball of earth and the ball sewed in a mat. This makes transplanting almost an assured success. Our evergreens should not be confused with the low-priced plants frequently offered. We move them constantly in order to secure a good root growth, and they are less liable to loss when shipped.

? Which is the cheaper—to buy 100 evergreens at 50 cents each, dug in the ordinary way, without ball, and lose one-half of them (the usual experience), or pay \$1.00 each for them and not lose any?

## VINES AND CLIMBERS.

**We ask particular attention to our "Pot Grown Vines." They are well established plants, strong, vigorous and well grown. They are shipped without breaking the ball. The best results are obtained from using potted plants, especially in the fall.**

## The Best Nursery Spade

We have experimented with a number of different makes of nursery spades, but find this to be the strongest, best and most durable on the market. We have been using this spade for a number of years and it will stand more hard work than any other make. It is strapped full length of handle both back and front, and half way up it has double straps, strengthening it in what otherwise would be its weakest parts. When ordering state if straight or taper blade is wanted.

Price, \$1.75 each; \$20.00 per dozen.

# FRUIT STOCKS AND SEEDS

**CONDITIONS OF SALE.**—All offers and acceptances of orders are subject to our receiving the full quantity for which we have placed orders with our growers and seed collectors. Failing to get these amounts from them, we reserve the right to reduce proportionately all orders that have been booked.

**GUARANTEE.**—While we try to procure the very best seed on the market, we give no guarantee, either expressed or implied. Samples will always be furnished when applied for. If the seeds are not accepted on these terms, we must be notified at once. If they are kept it will be taken as proof that they are satisfactory.

**ALL CLAIMS** must be made upon receipt of goods. **RESPONSIBILITY.**—After goods are placed on board cars here we assume no responsibility for their safe delivery.
